AUTOMATIC PHONES HONOLULU STOCK FXCHANGE ARE NOW ASSURED

Million Dollar Company Will Start Work Shortly

An automatic telephone system, deing away with "hello" girls, is the next thing for Honolulu. The Wireiess Telegraph Company on Saturday filed an application to change its name to the Hawaiian Telegraph and Telephone Company, and to increase the capital stock to \$1,000,000 instead of

capital stock to \$1,000,000 instead of \$150,000, as it now is.

Clinton J. Hutchins stated that the new company had a contract with the Automatic Electric Company of Chicago for their system of automatic telephones for this Territory. He also stated that the constructing engineers were on their way here now, that the money for building was assured, and that the charter was secured on July 1, 1907.

that the charter was secured on July 1, 1907.

A site has already been selected on which will be built one of the finest buildings in the city for the exclusive use of the company. From Pawaa to Palama the system will all be underground.

ground.

The automatic phones are very simple to use. On the front of each is a row of digits on a revolving disc. To call up a number the receiver is first taken off the book, and then press the digits in succession that go to make up the number wanted, after each digit returning the disc to the gauge. If the line is busy it will be indicated by a buzzing sound. Nobody can over-hear you while you are telephoning, and no one can cut in on you when once the number is gotten.

STRANDED.

The elopers were 1,000 miles from home and their funds running low. "See, dear," whispered the enthusi-astic bride, "I am wiring papa an ab-rouncement of our elopement and have added 'R. S. V. P.'"

The tall bridegroom smiled signifi-

"Better make it 'R. S. C. P.,'" he redded, gently.

"'R. S. C. P.?' Gracious! What does that stand for?"

"Rush Some Cash Please."
